Connectors > Connector Accessories > Connector Strain Relief

Strain Relief Accessory Type: Pull Loop
Primary Product Material: 66Nylon
Primary Product Color: Black

Shielded: No

Number of Positions: 0

Features

Product Type Features

| Strain Relief Accessory Type | Pull Loop |
|--|-----------------------|
| Sealable | No |
| Configuration Features | |
| Number of Positions | 0 |
| Body Features | |
| Primary Product Material | 66Nylon |
| Primary Product Color | Black |
| Usage Conditions | |
| | |
| Operating Temperature Range | 0 - 55 °C[0 - 100 °F] |
| Operating Temperature Range Operation/Application | 0 – 55 °C[0 – 100 °F] |
| | 0 - 55 °C[0 - 100 °F] |
| Operation/Application | |
| Operation/Application Shielded | |
| Operation/Application Shielded Industry Standards | No |
| Operation/Application Shielded Industry Standards UL Flammability Rating | No |

Product Compliance

For compliance documentation, visit the product page on TE.com>

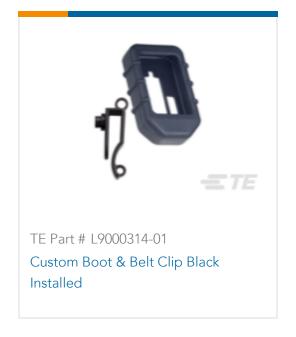

| EU RoHS Directive 2011/65/EU | Compliant |
|---|---|
| EU ELV Directive 2000/53/EC | Not Yet Reviewed |
| China RoHS 2 Directive MIIT Order No 32, 2016 | No Restricted Materials Above Threshold |
| EU REACH Regulation (EC) No. 1907/2006 | Current ECHA Candidate List: JUNE 2024 (241) Not Yet Reviewed |
| Halogen Content | Low Halogen - Br, Cl, F, I < 900 ppm per homogenous material. Also BFR/CFR/PVC Free |
| Solder Process Capability | Not reviewed for solder process capability |

Product Compliance Disclaimer

This information is provided based on reasonable inquiry of our suppliers and represents our current actual knowledge based on the information they provided. This information is subject to change. The part numbers that TE has identified as EU RoHS compliant have a maximum concentration of 0.1% by weight in homogenous materials for lead, hexavalent chromium, mercury, PBB, PBDE, DBP, BBP, DEHP, DIBP, and 0.01% for cadmium, or qualify for an exemption to these limits as defined in the Annexes of Directive 2011/65/EU (RoHS2). Finished electrical and electronic equipment products will be CE marked as required by Directive 2011/65/EU. Components may not be CE marked. Additionally, the part numbers that TE has identified as EU ELV compliant have a maximum concentration of 0.1% by weight in homogenous materials for lead, hexavalent chromium, and mercury, and 0.01% for cadmium, or qualify for an exemption to these limits as defined in the Annexes of Directive 2000/53/EC (ELV). Regarding the REACH Regulations, TE's information on SVHC in articles for this part number is still based on the European Chemical Agency (ECHA) 'Guidance on requirements for substances in articles' (Version: 2, April 2011), applying the 0.1% weight on weight concentration threshold at the finished product level. TE is aware of the European Court of Justice ruling of September 10th, 2015 also known as O5A (Once An Article Always An Article) stating that, in case of 'complex object', the threshold for a SVHC must be applied to both the product as a whole and simultaneously to each of the articles forming part of its composition. TE has evaluated this ruling based on the new ECHA "Guidance on requirements for substances in articles" (June 2017, version 4.0) and will be updating its statements accordingly.
